REDUCING YOUR COSTS OF LABOR... *ONE PAY PERIOD AT A TIME.*

Automate timekeeping, minimize your exposure to wasted labor costs and reduce the time it takes to process employee data. With our **WebTime** solution, our clients can significantly reduce labor costs with a solution that pays for itself year after year!

With many options, it's easy to use—simply clock in and out with the push of a button, swipe of a card, through a finger scan, or online through your PC. The time clock is also easy to set up—just plug it in and begin.

Designed with a user-friendly approach in mind, there is NO software to install, and you can conveniently view, edit, and run reports right through your web browser. The web-based server automatically does the collecting, calculating, processing, and reporting—quickly and accurately.

Specializing in payroll processing, tax filing and human resource administration solutions, let us help your company maximize efficiency while reducing bottom line costs. We strive to provide the highest quality of customer service with our state-of-the-art technology and cutting-edge, scalable solutions to fit your business needs.
