

Now you're in control of your payroll processing.

CheckConnect puts you in control of payroll processing, offering an online portal as a flexible and reliable resource for your payroll data collection, review and reporting. With solutions designed to meet the needs of today's businesses, the choice is all yours.

CheckConnect PC

Prefer to host your own data? With the installed version of CheckConnect you are able to create secondary checks, set up occasional deductions, manually enter employee hours in multiple departments and even utilize a job tracking feature. With simple keyboard shortcuts you can quickly create list reports, export files, fax reports, and more!

CheckConnect Online

Looking for a hosted solution? Completely mobile and available 24/7, you can maintain timekeeping online and process payroll anywhere in the world with secure access to your company data. You control the information while we handle the behind-the-scenes work with our experienced professionals who are available to assist you!

Employee Self Service

Offer employees immediate, easy access to their paystubs! Reduce paper and costs with Employee Self Service—available with CheckConnect Online. You will be giving employees the freedom to view and print pay stubs and W-2 forms as well as access their individual payroll history.

Specializing in payroll processing, tax filing and human resource administration solutions, let us help your company maximize efficiency while reducing bottom line costs. We strive to provide the highest quality of customer service with our state-of-the-art technology and cutting-edge, scalable solutions to fit your business needs.
